UVS International invites you to travel differently, in a solidary way in order to help Senegalese population.

Country of 15 million inhabitants, located in the western part of the African continent and borders on a 700-kilometer coast on its west side, Senegal is full of diverse ecosystems, covered with several-centuries year old baobabs. A place where the sun is shining almost all year long and where plenty of habits and customs are giving the rhythm to the cultural agenda of the different regions.
