**UVS International invites you to travel differently, in a solidary way in order to help the population of Sri Lanka.**

With its 20 million inhabitants, the island of Sri Lanka used to be a strategic axis in Antiquity and spices business. Now, it is well-known for its symbolic landscapes: rice fields and mesmerizing green plantations of tea or even the secrets and mysteries about ancient cities immersed in the tropical forest.

You'll be able to see leopard and elephants, powerful animals from religious Buddhist legends but also monkeys and multicolored birds. You'll have the opportunity to discover the wealth and plurality of Sri Lankan fauna and flora but also the cultural plurality of a nation still impacted by its colonial past. Thus, the escape will be complete! Get your senses ready because they will be pushed to their limits!
